

MENDOLA®

MENDOLA – WHERE STYLE AND FUNCTION MEET.

Designed by Peter Roth, the Mendola chair is the perfect solution for banquet and meeting room seating. Built on the MTS Burgess® exclusive lightweight, high-strength triangular aluminum alloy extrusion and with its architecturally clean lines, the Mendola is not only aesthetically pleasing, but extremely functional. Want more? Add options like the ProBax® Advanced Seating Technology and the detachable writing tablet and now you have the utmost in form and function.

Detachable swing arm tablet.		

All Mendola models stack frame-on-frame up to 10 high.

Tablet arm must be detached from model 07/1TA to accommodate stacking.

ProBax
Advanced Seating Technology

The optional Pro-Bax technology is a system of foam inserts within the seat that subtly support and tilt the pelvis, improving postural position in support of the spine. Offered exclusively through MTS, ProBax has been medically proven to improve comfort and alertness.

The Mendola multi-contoured shell flexes to provide full ergonomic support.

The Mendola arms have an elegant twist detail

Specially designed clear stack buttons guide and retain the chairs' position for increased stacking stability and safety.

The triangular designed lightweight, high-strength aluminum alloy extrusion utilized in the Mendola assists in creating a tighter stack that naturally aligns each chair for safe stacking up to 10 high.

This optional handgrip is specifically designed for use with the Mendola chair. This handgrip not only provides a firm and comfortable grip, but also limits contact with the chairs upholstery.

The MTS optional retractable wire ganger slips out of sight under the chair when not in use.

The Mendola chair is available with an optional detachable writing tablet. The tablet rests casually along the side of the chair and swings upright into place when a writing surface is needed.

The optional lower lumbar support insert is designed to reduce fatigue and enhance comfort during periods of prolonged sitting.

MTS Seating is sensitive to the impact of our manufacturing on the world around us. That's why we developed and adopted the SynerGreen® philosophy to make continuous environmental improvements in our processes and products, while practicing sound business principals to focus on satisfying customer needs. In addition, MTS is proud to be the first hospitality banquet seating manufacturer to earn the GREENGUARD® Indoor Air Quality Certification on our line of stacking, banquet and restaurant seating.

Visit our website at mtsseating.com to find out more about our SynerGreen program and for the big picture in turnkey solutions for every seating setting.

Discover performance engineering, ergonomics today's hospitality industry demands, and the design impact to make a lasting statement – whimsical to romantic, retro to regal.
