The Hyatt Regency Orlando

Orlando, FL

Probax® Advanced Seating Vario Allday®

The Vario Allday® Series from MTS has earned a warm welcome in banquet, convention and hospitality facilities of all kinds. Displaying the perfect combination of refined style and long-lasting ergonomic support, each Vario model is standard with our contoured COMFORTflex® back, lumbar support, and contoured molded seat for superior comfort. It's a difference that is certain to sit well with everyone in your company.

As one of the cornerstones in the MTS Burgess® collection, the Vario continues to impress with a variety of design options that are sure to inspire the layout and look of any room. Available in a reeded or smooth profile, these leg-on-leg stackers are comprised of high-strength, lightweight, aluminum alloy frames – an advantage that translates into greater reliability and service life, as well as ease of use and handling.

All Vario Allday® products are covered by one or more of the following patents and/or patents pending:	7,052,083	D542,553
	6,805,412	D470,321
	D536,548	D470,317
	D541,069	D486,003

COMFORTABLY DONE

Even the lengthiest keynote addresses are easier to get through when you can sit through them without distraction. With the Vario stacking chair, guests are far more likely to keep their thoughts on the topic at hand instead of on their posture during extended periods of seating. Varios stack up to 10 high.

SEATING IS BELIEVING

Vario Allday® seating is designed to deliver long-lasting comfort for extended seating applications. The exceptional craftsmanship is evident at first sight, highlighted by attractive fabric details and a wide range of optional upgrades at your request. It's all about turning good seating into great. And that's all about MTS.

Features

Contoured Seat

This standard feature on the Vario Allday® Series provides the ultimate in all-day comfort.

Contoured Back

Developed in conjunction with the contoured seat, the contoured back, formed from curved plywood, creates a bilateral design that combines the comfort of a contoured back with traverse lumbar support as featured below.

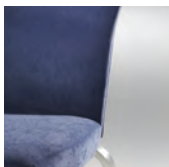

Lumbar Support

Designed to reduce fatigue and enhance comfort during periods of prolonged sitting.

Upholstered Outer Back

All Vario Allday stackers feature upholstered outer backs with no exposed fasteners for a clean, finished look.

Clear Vinyl Side Rails

This addition assists in the protection of upholstery from normal wear and tear during routine stacking and handling.

Protective Stacking Strips and Clear Stack Buttons

A small detail that makes a big difference, the back legs of our Vario Allday stackers (left photo) feature protective stacking strips color coordinated to the frame finish, that work in conjunction with clear protective stack buttons (right photo) on the front legs, to safeguard the frame finish and ensure the long life of your chairs.

Standard on Vario Allday models, this system features an alloy spring that allows the back to flex as the person moves or applies pressure while seated for hours of comfortable support.

Leg-on-Leg Stacking Design

Created to stack Vario chairs up to 10 high in a safe and secure manner, stacking frames are protected by Dupont® Surllyn stacking buttons and are backed by a 12-year structural frame warranty.

21 Series
Reeded Frame

22 Series
Smooth Frame

Reeded and Smooth Profiles

Select a unique reeded pattern for an added touch of elegance or a smooth profile for subtle embellishment.

Options

Top Rail/Handgrip

Optional top rail/handgrip allows for easier maneuverability and handling before and after events.

Retractable Linking Device

An optional feature that enables Vario stackers to be ganged together. Available in black, gold and silver.

Maple Wood Backs

Optional maple backs add sophistication and style to any environment. Choose from eight standard stains or custom-matched selections.

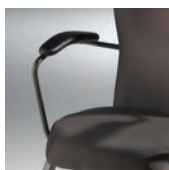

COMFORTweb® Seat

Designed for extended periods of sitting, MTS COMFORTweb® technology works by interweaving flexible, rubberized polypropylene stretchbands in support of a 2-1/4" layer of COMFORTbliss™ foam padding.

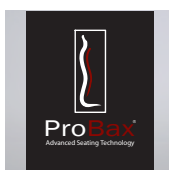

Vinyl Bumper Edge Option

Available in 15 colors, the MTS vinyl bumper edge offers excellent upholstery protection, while blending seamlessly with the chosen upholstery color and/or pattern. All Vario back styles, including top rails or wood backs, are available with this option (replaces clear vinyl side rails).

Armchair Option

Available on all styles, this comfortable PVC armrest resists damage from abrasion and chemicals (excludes COMFORTflex® Seating System).

ProBax® Option

Offered exclusively through MTS, ProBax-infused, foam-based seating has been medically proven to improve posture and alertness — an advantage that provides a comforting way to set your facility apart from the rest.
