

331 Square Maple Edge Table Top shown on a 4300 Reeded base.

260 SierraSolid Veneer Table Top shown on a 1500 Series base.

MTS offers a comprehensive line of hospitality seating and tables for any occasion. A certain liberty is granted to designers when the possibilities are only limited by the imagination. That rare freedom is something you'll find within MTS' impressive line of hospitality products.

We believe seating should inspire, complement and comfort. We believe that tables should be strong, functional and made with the integrity to last. We also believe that all the products we create should be manufactured in environmentally responsible ways. At MTS, we call this SynerGreen® – our guiding philosophy in minimizing our impact on the world around us.

Want more inspiration? Visit us at www.mtsseating.com or call 734-847-3875. A style for every style.

Tables and Bases for Timeless Value

MTS is dedicated to designing and manufacturing high-performance table top and base products for the hospitality industry at the best value. It's a standard of quality that's unmatched, delivering a level of performance that truly stands out.

Our innovative styles not only look appealing to the eye, but also feel pleasing to the touch featuring a variety of curved, beveled and straight edges, ensuring that you'll never run out of choices.

MTS table tops and bases come in many shapes and sizes to fit any application. Please refer to the specification chart for each product line to determine the products for your needs.

At MTS, we're pleased to offer you seats at our tables. Standard shapes below.

	Rectangle
	Square
	Round

Custom shapes available as shown below. Contact MTS for more information.

	1/4 Circle Booth Table
	1/2 Circle Booth Table
	3/4 Circle Booth Table
	Wall Mount Table Booth
	1/2 Round Table
	Rounded Square Table
	Boat Table
	V-Boat Table
	Racetrack Oval

On Top of the Details

Every MTS table top is produced to exceed your expectations. You'll find our signature attention to detail, and dedicated workmanship in throughout every piece we design, manufacture, and sell.

255 Polished Finish Aluminum Edge

Great diner and retro look with polished finish, 1¼" aluminum edge, unlimited laminate surface options. Standard with 3½" radius corners. Square corners not available.

260 Veneer SierraSolid® Eased Edge

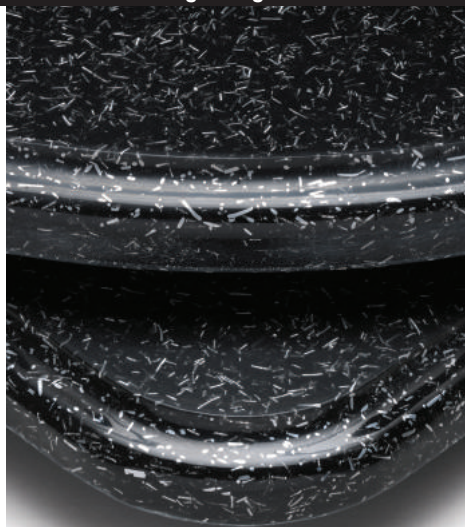

Available in our most popular sizes, the eased edge SierraSolid veneer table tops feature an unmatched depth and consistency of color providing superior color retention, scratch resistance and cleanability. This top is an effective, affordable solution featuring a 1-1/4" solid surface edge and 1/4" veneer over a 3/4" exterior grade plywood core.

261 SierraSolid® Roundover Edge

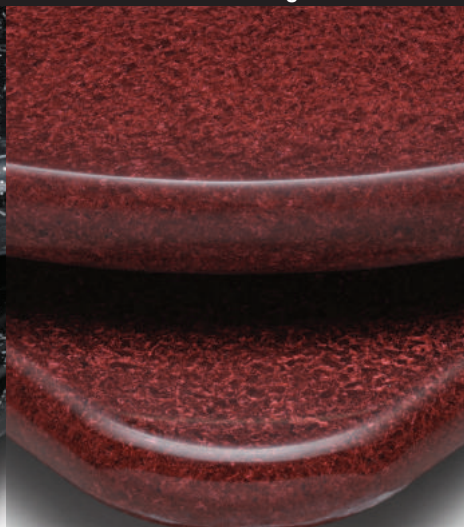

SierraSolid table tops have an unmatched depth and consistency of color providing superior color retention, scratch resistance and cleanability. Our molded construction delivers a stronger, more durable, reinforced edge — reducing waste and cost as compared to traditional solid-surface tabletops. Standard with 3" radius corners. Available in more than 70 colors.

262 SierraSolid® Ogee Edge

SierraSolid table tops have an unmatched depth and consistency of color providing superior color retention, scratch resistance and cleanability. Our molded construction delivers a stronger, more durable, reinforced edge — reducing waste and cost as compared to traditional solid-surface tabletops. Standard with 3" radius corners. Available in more than 70 colors.

264 SierraSolid® Bullnose Edge

SierraSolid table tops have an unmatched depth and consistency of color providing superior color retention, scratch resistance and cleanability. Our molded construction delivers a stronger, more durable, reinforced edge — reducing waste and cost as compared to traditional solid-surface tabletops. Standard with 3" radius corners. Available in more than 70 colors.

265 SierraSolid® Chamfer Edge

SierraSolid table tops have an unmatched depth and consistency of color providing superior color retention, scratch resistance and cleanability. Our molded construction delivers a stronger, more durable, reinforced edge — reducing waste and cost as compared to traditional solid-surface tabletops. Standard with 3" radius corners. Available in more than 70 colors.

Style that's Right on the Surface

It's easy to see why MTS tables are so popular. Whether it's the fine grain patterns on our solid wood products or the delicately colored mosaics on our SierraSolid offerings, they just simply outshine others.

Featuring design-inspired 3/4" slimline 11 ply Baltic birchwood square eased edge with trimmed laminate overlay. Square corner standard. Optional 3 1/2" radius corner available.

1 1/4" Maple Butcher Block

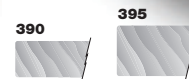

Manufactured with 1 1/4" wide continuous strips with no end-to-end joints. All lumber is air dried for a minimum of 90 days and then kiln dried to a moisture content of 6-8% prior to processing. Tops are finished with an ultra-violet cured top coat for an exceptionally hard, durable finish.

1 3/4" Maple Butcher Block

Manufactured with 1 3/4" wide continuous strips with no end-to-end joints. All lumber is air dried for a minimum of 90 days and then kiln dried to a moisture content of 6-8% prior to processing. Tops are finished with an ultra-violet cured top coat for an exceptionally hard, durable finish.

1 3/4" (top) & 1 1/4" Maple Plank Style

Manufactured with solid maple in 5" to 6" wide continuous planks and no end-to-end joints. All lumber is air dried for a minimum of 90 days and then kiln dried to a moisture content of 6-8% prior to processing. Tables are finished using a two-product polyurethane system for an exceptionally hard, durable finish.

Saving You a Seat

As the leader in hospitality seating, it's natural that MTS would round out our product lines with high-performance table tops and bases. It's more than just meeting expectations; it's exceeding them.

And that's what we do every day.

Fold-A-Leaf® Table Tops

Fold-A-Leaf® Table Tops are perfect when flexibility is a must. Table leaves flip down to create a smaller square or rectangle table top for more intimate occasions. Available in four standard sizes square to round, and one standard size square to rectangle.

Fold-A-Leaf table tops are available in the following series styles:

- 205 Series Padded
- 210 Series Laminated Self Edge
- 311 or 313 Series Square Maple Edge on center and outer leaf edges of table*
- 311 Series Square Maple Edge on center of table and 315 Series Bullnose Maple Edge on outer leaf edges*
- Maple may be replaced with optional Red Oak

**Inside edge of leaf finished in 210 Laminate*

Custom sizes may be available on square to square, or square to rectangle tops.

Flip Top Table Bases

Flip Top table bases are a must when tables are commonly moved or stored. Allowing for space-saving storage, and easy access for cleaning under tables. The Flip Top mechanism also comes in handy when trying to free up additional floorspace for events where tables are not needed.

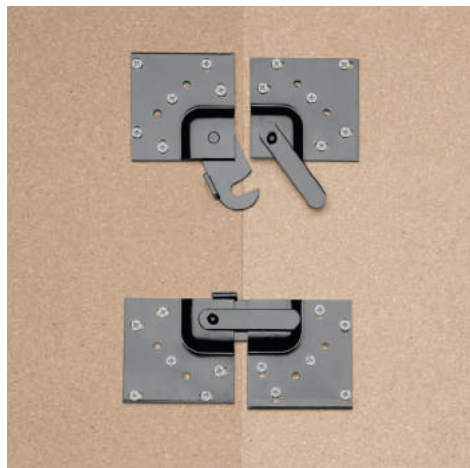

The two-piece, 7 gauge, cold-rolled steel Flip Top mechanism connects securely to the metal base and wood top. When the top is attached to the base, it locks in position with a threaded knob for easy and secure attachment. Available on 2LS, 3LS and 4LS columns, with a maximum table size of 42" (round or square).

Flip Top Table Bases are available in removeable and non-removeable versions.

SureLock® Table Latch

SureLock Table Latches are the quick, safe and easy way to connect tables. The heavy gauge steel lever and latch system, lines up and securely locks tables together, resulting in a single, sturdy, flat surface. Available only on square edge table tops, as well as models 202 and 232 (with a slight reveal). See our Workbook & Pricelist for availability.

Table Shox

Table Shox are automatic, hydraulic table glides that self-adjust every time your table is moved to help solve uneven floor problems.

These optional hydraulic glides replace manual screw in/out table glides. The enclosed small shock absorbers automatically adjust to uneven floor surfaces.

- Automatically re-adjust up to 5/16" each time the table is moved
- Keeps all contact points touching the floor
- Corrects for uneven or irregular surface up to 5/16"
- Functions with an internal hydraulic mechanism
- Made of high quality steel, polyurethane, and impact-resistant nylon
- 400 lb. load capacity per set of 4

Laborsaver Bases

All MTS Laborsaver bases feature steel top plates welded 360° with a 2" base bolt welded directly to the column. Our 2", 3" and 4" round columns feature a 16"x16", deep drawn, 12-gauge top plate. Simply place the base over the base bolt, attached the lock washer and nut, and your Laborsaver Base assembly is complete. The conventional base typically takes up to 5 minutes to unpackage and assemble versus the Laborsaver Base, which can take as little as 60 seconds to complete!

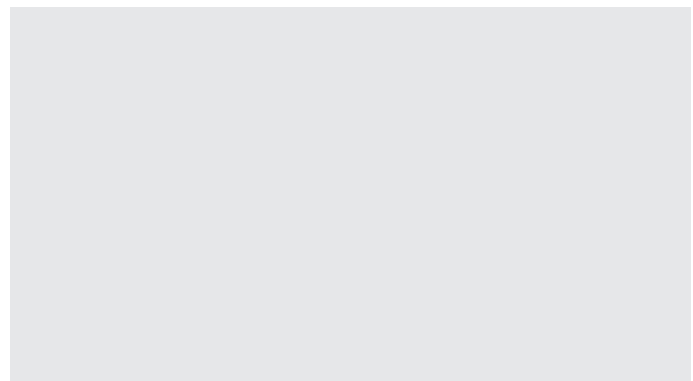

MTS Seating is sensitive to the impact of our manufacturing on the world around us. That's why we developed and adopted the SynerGreen® philosophy to make continuous environmental improvements in our processes and products, while practicing sound business principles to focus on satisfying customer needs. In addition, MTS is proud to be the first hospitality banquet seating manufacturer to earn the GREENGUARD® Indoor Air Quality Certification on our line of stacking, banquet and restaurant seating, and in 2014, MTS received Sustainability Leader status with the MindClick Global Hospitality Sustainability Index.

Visit our website at mtsseating.com to find out more about our SynerGreen program and for the big picture in turnkey solutions for every seating setting.

Discover performance engineering, ergonomics today's hospitality industry demands, and the design impact to make a lasting statement – whimsical to romantic, retro to regal.
